

„START UP Yourself: the BEST is yet to come!”

Torino, 2011

Buongiorno, Turinian BESTies!

Since there's a little break during the yearly student carnival, I found this a great time to apply to your course ;) So allow me to introduce myself:

My name is Krzysztof, (everyone calls me Kris) and i study on Silesian University of Technology, obviously. Well...That's pretty much enough about the studying part- why would i bore you to death.

So who am I actually?

I am a true Mongolian spirit, music freak, pub crawler, stoner rocker, park off-golfer, bandit fundraiser and as far as i heard- a karaoke sadist. I'm pretty sure that's enough to prove that i would participate in craziest activities you imagine ;) But I haven't chose your course just to party- There's couple of good reasons, why I want to come to Torino:

I always wanted to make it big using the smart way shortcut- either find a great place to belong, but more likely - create something that makes life easier and getting a profit from manufacturing it, proudly seeing how it changes peoples lifes for better. However as soon as i had lot of fantastic ideas to achieve it, I haven't knew how to start- that's probably the main reason i want to get to your course so badly ;)

And last but not least- I'm in love with Italy, honestly! I've been there only for winter once(i wanted to get there by hitchhike last weekend - didn't worked out, unfortunately), but i fell in love in your food since the first bite, similarly with architecture, cars (I guess now only in Italy people pronounce "Lamborghini" properly) liquor and of course women - probably the most charming in whole Europe. In conclusion- It's an awesome place to start it all up!

I hope we'll see each other soon- cheers!
